

RF COAXIAL CABLE ASSEMBLIES

Cernex can fabricate cable assemblies using flexible, conformable or semi-rigid cable according to customer requirements. All assembly, test and final inspection is in accordance with IEC 966-1-4.

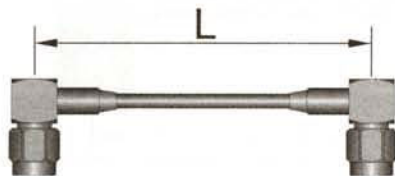

To order, please indicate the type of connector, the type of cable and the length of the finished assembly. Dimensions should be shown in accordance with the figures shown below. If the straight connector has a coupling nut, be certain that the nut is fully extended.
